

Snore...Snore...

Plagued with **snoring** problems?

You might be suffering from **Obstructive Sleep Apnea**.

Nearly 18 million people suffer from Obstructive Sleep Apnea or OSA.
Symptoms include:

- Excessive snoring
- Gasping or choking for air at night
- Morning or daytime fatigue
- Headaches

If untreated, OSA may cause high blood pressure, heart disease or stroke.

Put an end to sleep problems by calling
Nationwide Respiratory at 800.969.1213
for a provider in your area.

Better breathing. Better living.
